16. Sanxingdui is such an amazing place that it is now world-famous. Archaeologists have worked there since 1934. Many people before me have put in a great deal of effort. As I continued their work, I often felt like I was standing on the shoulders of giants. The surprising discoveries are the fruit of over 90 years of effort.The finds at Sanxingdui provide a missing piece of Chinese history. Sanxingdui was once a centre of different cultures. This proves that Chinese culture was open to other cultures from a very early period. Different cultures mixed with each other to form today's China. 0 /5分
